

## proxSafe®

### Key Management & Smart Storage Systems

The intelligent management system for keys and equipment with comprehensive audit and reporting capabilities. Control who can have access to individual items and restrict when they can be taken. Keys, radios, test equipment, tools, laptops and much more can now be managed efficiently with increased accountability so you know where they are and who has them. The powerful software Commander Connect allows easy configuration and control of access rights, time profiles and the creation of individual reports. That way you stay in control at all times and make the best use of your equipment.

### Remote operation using potential-free outputs

The OUT 32 allows remote controlling external systems over long distances. If, for example, keys are taken from a proxSafe key cabinet, the corresponding door sensor of an alarm system can be disarmed.

Elevator control in access applications or the connection of security systems with building automation are further areas of application.

32 potential-free contacts allow easy integration into existing systems. The system can be expanded in blocks of 32 potential-free outputs.

### Your benefits at a glance:

- **Tamper input as sabotage protection**
- **Long distance control**
- **Expandable in blocks of 32**

### Technical Data

<b>Dimensions WxHxD:</b>	225 x 100 x 40 mm
<b>Material:</b>	Aluminium
<b>Protection:</b>	IP20
<b>Operating Temperature:</b>	+5...+50 °C
<b>Power Requirement:</b>	12 VDC / < 1A
<b>Relative Humidity:</b>	5...95 %, non-condensing
<b>Signalling:</b>	Beeper, LEDs
<b>Interface:</b>	RS485
<b>Tamper Input:</b>	yes
