

deister – innovative products and solutions

The name deister electronic has been synonymous with innovative RFID products and solutions in the fields of security and automatic identification for more than 35 years. Our portfolio of products is used to manage keys and valuable objects, for vehicle identification, access control as well as logistics and automation technology. Developing and marketing new technologies as well as interfaces between products and systems forms the basis to create flexible solutions for customer-specific applications.

keyFob

The keyFob range of devices consists of passive transponders in the form of a key fob. They are available with different technologies and memory sizes. That means they are suitable for use in a wide variety of access control systems as well as time attendance recording systems.

A V2A ring is perfectly suitable for attaching the key fob to a key ring and carrying it around to facilitate a long service life.

Your benefits at a glance:

- **Suitable for different, connected systems**
- **Encryption ensures high level of security for all stored information**
- **Prepared for additional applications**
- **Key management task performed by customer or deister electronic**
- **Available with different frequencies and technologies**

TPM 3807 F

Technical data

Dimensions WxHxD: 36 x 61 x 11mm

Material: ABS / V2A

Protection class: IP67

Colour: Black
Optional Version F red

Operating temperature: -20...+50°C

Technology:

TPX 207	125 kHz / Temic / 256 bit
TPX 507	125 kHz / Hitag 2 / 256 bit
TPC 2007	125 kHz/HiTag 2/256 bit/ crypto
TPM 3007	13.56 MHz / mifare DESFire EV1 / 8 kBytes
TPM 3207	13.56 MHz / mifare classic / 1 kB
TPM 3807	13.56 MHz / secureProx, mifare DESFire EV1 / 8 kBytes
TPM 3807 F	13.56 MHz / secureProx, mifare DESFire EV1 / 8 kBytes
