

WIN>Days 2021 – deister electronic will be participating again!

This year, deister electronic will again take part in the virtual WIN>DAYS and present top-class security solutions for companies and institutions.

Barsinghausen, 28th April, 2021 – Many of you know deister electronic as a company that delivers what it promises – and this is more than necessary, especially in the security sector! This year, deister electronic will once again take part in the WILEY INDUSTRY DAYS, the WIN>Days. deister's experts will be there to demonstrate live how to use the established security and laundry management solutions, which can be individually adapted to your requirements. Let the quality of the products convince you from a safe distance!

As you have probably already noticed, security and automation are becoming increasingly important, especially in today's world. That's why deister will be presenting technological innovations in the fields of electronic key and asset management, digital locking systems, vehicle identification and laundry management to help you and your company achieve greater security and efficiency.

Why don't you think about a few questions you would like to ask our competent sales staff? They will be happy to answer all your questions in detail during the event and will be on hand to give you advice and support!

deister electronic is looking forward to welcoming you at their virtual exhibition stand from 7 to 9 June!

About deister electronic

For 40 years, deister electronic has been an internationally modern and sustainably managed family business that stands for innovative and safe automation solutions. With five international locations, we sell our solutions worldwide and have a strong international focus. Our solution portfolio is used, for example, in the following applications: Long-range identification for access control, access control to buildings, automatic management of work equipment and valuables in electronic locker systems, dispensing and management of textiles for laundry and hospital logistics.
