

deister electronic receives LenelS2 Factory Certification under the LenelS2 OpenAccess Alliance Program

Commander Connect software from deister electronic interfaces with the LenelS2 OnGuard access control security system

Barsinghausen, October 22nd, 2021 – deister electronic today announced that it has received LenelS2 factory certification and joined the LenelS2 OpenAccess Alliance Program (OAAP). The Commander Connect software from deister electronic interfaces with the OnGuard® access control system, thus allowing proxSafe key management and smart storage solutions to be used within installation utilizing the OnGuard system.

“deister electronic has completed required factory testing at LenelS2 to validate the functionality of its interface to the OnGuard system. Being certified for interfacing to the OnGuard system will allow deister electronic and its partners to market their solutions to a wider range of international customers,” said John Marchioli, OAAP Product Management, LenelS2. “We look forward to their continued involvement in the LenelS2 OpenAccess Alliance Program.”

All Commander Connect 4 releases are now certified to interface with:

- OnGuard version 8.0
- OnGuard version 7.6
- OnGuard version 7.5

“We are proud to release this interface that enables our customers to control both our key management and smart storage lockers seamlessly through the OnGuard software,” said Nicolas Stobbe, Head of Business Development at deister electronic. “The compatibility to all supported OnGuard versions makes it easy for customers to interface their deister system with the OnGuard system.”

For more information and detailed documentation on the features and limitations of the new interface please visit the Documents section of the [deister Dashboard](#).
